2010 Information Technology & Security Seminar

March 4th ~ Holiday Inn West ~ Madison, WI

Weather, Taxes and constant change in Information Technology/Security. We can't help you with the first two, yet! But with IT, we have you covered. Come join the Wisconsin Water Association and the IT and Security committee for a day long seminar to keep you and your utility current with all the latest in IT and Security. We start the day with a discussion on our social networking sites and updated WWA website. GIS and Energy Management are also covered as they are more

important than ever in this era of tight budgets. Mobile applications are emerging every day so we are having a round table discussion to help you see how other utilities are implementing these time saving strategies. Water Security issues are here to stay and we have several different topics including, Water ISAC, Infragard and real world examples from the Milwaukee Water Utility. To end the day we have the National Guard stopping by with their Mobile Lab. If you haven't seen this Mobile Lab before it is an absolute must see! Come see our new seminar location at the Holiday Inn West, Madison.

Online Registration & Information Available @ www.wiawwa.org

You can earn 6 Waterworks Continuing Education credits by attending the IT/Security Seminar
